

Squirt Chain Lube

Application Instructions

Choose the right option for lubing your chain

Option A

How to lube your **CURRENT CHAIN**

- 1 Make sure your bike's chain is dry
- 2 Shake the bottle well
- 3 Apply Squirt Chain Lube to inside of chain while turning cranks.

Option B

How to lube your **BRAND NEW CHAIN**

- 1 Degrease chain completely
- 2 Clean off all degreaser thoroughly
- 3 Allow to dry
- 4 Apply Squirt Chain Lube

Option C

How to lube a **CHAIN WITH OTHER OILS/LUBES** on it

- 1 Degrease chain using degreaser or soak in undiluted Squirt Biodegradable Bike Cleaner Concentrate for 30min
- 2 Use firm brush to accelerate the dissolving action
- 3 Rinse and allow to dry
- 4 Apply Squirt Chain Lube

Good to know

Dirt doesn't stick to Squirt

Dirt will generally not stick to dry Squirt Chain Lube, and the little bit that may, will eventually flake off with the lube.

When is the best time to lube my chain?

Applying Squirt Chain Lube after a ride is a good idea as the lube will be dry and ready for the next ride. When anticipating a ride in wet conditions, application the night before will ensure that the lube is completely dry the next day.

More Technical info

We are always up for your questions. Feel free to mail us at info@squirtlube.com with any questions and we will do our best to answer them.

How Frequently must I lube my chain?

How often Squirt Chain Lube should be applied depends on the riding conditions. After a short while you will learn how long an application will last in your conditions. Of course, when you hear a dry chain noise, you should have applied already - so for the first few rides, whilst you learn about your conditions, it may be good idea to take a small sample bottle with you on your rides. Generally, every 4 hours on the MTB, and 6 hours on the road bike.

VeloNews Review

The authoritative US Velo Magazine tested Squirt Chain Lube as the fastest drip lube out there
